Kirk – the attached is for the request below.
Can you make sure it'll print? Because it's a large area, I wanted to use the basemap for context.

I will leave that part to WPD who handle the logistics.

I only keep rough sketch for myself only just to keeping track for removal once this is done.

Good Morning Jason,

No additional request at this time.

Based on the current situation, I made a contingency plan to restock our jersey barriers at Crawford yard for staging and preload the 6 barriers on the flatbed truck.
